

# Biographies of Presenters

**Aakanksha Sinha** earned her Ph.D degree in Social Work from Boston College, USA. A trained mixed-methods social science researcher, her passion lies in examining social and cultural factors that determine access to basic needs. She utilizes a strength based perspective in her research, thus focusing on community resilience, household and individual level strengths and social capital. Her contributions in the area of child welfare, health and poverty have been published in highly recognized scholarly journals and books such as *Children & Youth Services Review*, *Routledge Handbook of Poverty in the U.S.*, *Sage Encyclopedia of World Poverty*, *Global Social Welfare*, and *BMC Public Health*, amongst others.

**Aalok Ranjan Chaurasia** is currently Professor at 'Shyam' Institute, Bhopal, Madhya Pradesh. His PhD is from Jiwaji University, Gwalior, Madhya Pradesh, and he holds Post Graduate Diploma in Population and Development from Jawaharlal Nehru University, New Delhi. He has worked as Director, Population Resource Centre, RCVP Noronha Academy of Administration, Government of Madhya Pradesh, Bhopal, and Professor, Population Research Centre, Institute of Economic Growth, Delhi. He is a member of International Union for Scientific Study of Population and life member of the Indian Association for the Study of Population. He has written and edited many books and monographs and published more than 110 research papers.

**Abdul Muheet Chowdhary** is a legislative aide to B Vinod Kumar, Lok Sabha Member of Parliament from Karimnagar, Telangana. His work involves providing legislative and policy assistance to the Honorable MP. Prior to this he worked in the United Nations Information Centre for India and Bhutan. Abdul is a columnist with the Huffington Post and has written extensively on tax reform. He has also written on good governance at length, and his work has been published by Niti Aayog, UNDP, Ministry of Personnel (GoI) and various state governments.

**Abhinav Narayanan** is Ph. D Scholar from University of Georgia. He has completed his master's in economics from Jawaharlal Nehru University, New Delhi. His research interests include development economics, macroeconomics, labor economics and econometrics. He has received several awards like the E.T Comer Scholarship Award from the University of Georgia, Graduate School Dean's Award for Social Sciences, and University of Georgia Labor Economics Award for Young South Asian Scholars and the South Asia Research Network (SARNET) Award.

**Ahmed Moummi** is Head of Research in the Center of Initiative of Development Euro-Africa in Meylan, France. Before this period, Mr. Moummi was Senior Research Economist at the Development Research Department of the African Development Bank since October 2007. He has been Task Manager of several projects and flagship studies and Reports on Fiscal policy, poverty and inequality measurement, Inclusive growth and employment analysis. He has been task Manager of the African Economic Outlook Report as well as the African Economic Conference for two editions. He was also Assistant and Associate Professor for 14 years at the University of Mascara, Algeria. Ahmed Moummi holds a Ph.D. in Economics from the University of Tlemcen, Algeria and CERDI-Clermont-Ferrand, France.

**Akshaya Kumar Panda** has a Master degree in Sustainable Development. He has worked with M. S. Swaminathan Research Foundation, Regional Centre, Jeypore, Odisha, since 2001 in the areas of biodiversity conservation, medicinal plants, community seed management system, food, nutrition and health security, and participatory livelihood improvement. He has experience and understanding of pro-nutrition agriculture interventions, knowledge and experience of participatory assessments, training methodologies, ICT tools and documentation skills. Currently he is working as a senior scientist in the research project “Leveraging Agriculture for Nutrition in South Asia (LANSA)” and coordinates the Farming System for Nutrition (FSN) initiative in Koraput district, Odisha.

**Alejandra Villanueva Ubillús** holds a BA and a professional title in Sociology from the Pontificia Universidad Catolica del Peru, and a MA in International Development and Development Management from the University of Manchester. She has worked at the Universidad delPacífico Research Center as an analyst for consultancies and research projects with a focus on international cooperation, extractive industries and development in Peru and Latin America. She is currently engaged in M&E consultancies for academic institutions, and collaborating with On Think Tanks on research pieces on the challenges thinks tanks face in developing countries. Her research interests include the impact that international development agendas have at a national and subnational level, and the politics of development.

**Amir Ullah Khan** is a development economist, policy advisor to the Bill and Melinda Gates Foundation and Visiting Professor at the Indian School of Business in Hyderabad. He teaches Economic policy at the ISB and Health economics at the Manipal Institute of Technology. Amir has a PhD in Business Studies from Jamia Millia Central University. He graduated from the Institute of Rural Management in Anand (IRMA) and earlier from the Osmania University College of Engineering. He is on the Governing board at the Welham Girls School, Aequitas Consulting, Digital Empowerment Foundation and the Presidency University. He has worked as Editor at Encyclopedia Britannica and Director of the India Development Foundation. Amir has served as a member of the Post Sachar Evaluation Committee.

**Amrita Ghatak** is currently working with Gujarat Institute of Development Research, Ahmedabad, as an assistant professor. Her doctoral thesis focused on the impact of health on labour supply and wages with a special emphasis on agricultural workers in West Bengal. Her present research interest includes various issues on health, environment and labour. She is presently looking into (a) the environmental regulations and compliance behaviour in textile dyes sector of Gujarat; (b) occupational safety, health and well-being of workers in selected industries in India; and (c) factors determining usage of toilets in rural Gujarat. She uses both qualitative and quantitative techniques as the tools in her research work.

**Andrea Frank** is a Senior Lecturer in the School of Geography and Planning at Cardiff University (Wales, UK). Andrea has a background in both Urban Planning and Architecture. One of her research areas is urban sustainability and she has investigated how sustainability is progressed and implemented in European cities. In particular, she has explored which kind and how institutional and governance arrangements at metropolitan or city region level can enhance sustainability. More recently she started to explore different interpretation of green

infrastructure in different world regions as well as the contributions of green infrastructure to sustainability. She also has expertise in planning education and pedagogy and public participation for planning and urban design.

**Anil Methipara** is currently an undergraduate economics major in his final year at Carleton College, and will be graduating in mid-June of this year. He is currently looking into careers in public policy, climate policy, and environmental finance. His academic interests vary from the economics of climate change and development to the examination of the Malayalee diasporic experience and race in the United States. His paper for the PES conference was initially inspired by an internship experience he had in Kerala at the Centre for Public Policy Research where he learned more about the “Kerala Model of Development” and the more recent socio-economic challenges emerging in Kerala.

**Anjana Thampi** is a research scholar at the Centre for Economic Studies and Planning, Jawaharlal Nehru University, New Delhi. Her research interests include development economics, environmental economics and political economy. Her doctoral thesis studies the nutritional impact of food transfers in India, in the context of the continuing debate on cash versus in-kind transfers. The paper considers the impact of expanded coverage of the Public Distribution System on the nutritional status of beneficiary children, in light of the recent revival of this system in certain states.

**Anjani Kumar** is Research Fellow at the South Asia Office of International Food Policy Research Institute (IFPRI) in New Delhi. Before joining to IFPRI, he was Principal Scientist (Agricultural Economics) at the International Crops Research Institute for the Semi-Arid Tropics (ICRISAT), Patancheru, India. Earlier, he has served as Principal Scientist at National Centre for Agricultural Economics and Policy Research (NCAP), New Delhi and as Senior Agricultural Economist in the Asia Office of International Livestock Research Institute (ILRI), Nairobi. His area of research includes food & nutrition security, agricultural diversification, impact assessment, value chain analysis, agricultural trade and food safety.

**Annika Surmeier** is a human geographer and works at the faculty of Geography, Philipps-University Marburg, Germany. In her research she focuses on sustainability innovations in global value chains and analyses them from an evolutionary, transnational perspective. The focus of Annika’s PhD project is on the development, impact and diffusion of sustainability standards in the South African tourism industry. A central question guiding her research is how actors from emerging economies can influence global institution building. Annika has been a visiting researcher at the University of Manchester and the University of Cape Town, South Africa where she also conducted extensive empirical data collection

**Asilata Karandikar** has worked as a researcher in the field of gender and health with the Centre for Enquiry into Health and Allied Themes, Mumbai. She has been associated with advocacy on safe abortion and prevention of sex selection through CEHAT and with the Asia Safe Abortion Partnership. She has done her Masters in Political Science from Jawaharlal Nehru University, New Delhi, and in Women’s Studies from Tata Institute of Social Sciences, Mumbai.

**Bandita Sijapati** is Research Director at the Center for the Study of Labor and Mobility (CESLAM) at the Social Science Baha in Kathmandu, Nepal. She received her PhD from the Maxwell School of Citizenship and Public Affairs at Syracuse University. Her main fields of research are labour and migration, political transitions and development. She has worked with various international organizations and served as an expert to the Ministry of Labour and Employment, Ministry of Foreign Affairs and the SAARC Secretariat.

**Bhim Reddy** is an Associate Fellow at IHD, and an Associate Editor of the Indian Journal of Human Development. His Ph.D from the Department of Anthropology, University of Hyderabad, focused on rural-urban labour migration and agrarian change. His research interests are in agrarian political economy, manifestations of caste in contemporary India, everyday lives and politics of migrant/informal labour in urban centres, emerging recruitment practices in urban labour markets, struggles for urban citizenship, and urban violence.

**Brian Boshoff**, PhD is a Senior Lecturer in the School of Architecture and Planning at the University of the Witwatersrand, Johannesburg, South Africa. He holds degrees in Social Science, Development Planning and Environmental Planning and completed his Ph D at Virginia Tech., USA. His areas of interest include Sustainable Development at large, the Sustainable City, Water and Sustainability, Climate Change, and Disaster Risk Management.

**Carlos Gradín** (Ph.D in Economics, Universitat Autònoma de Barcelona, 1999) is Professor of Applied Economics at Universidade de Vigo in Galicia, Spain, and a member of the EQUALITAS network of researchers on income distribution. His main research interests are distributive issues such as poverty, inequality, mobility, or polarization, as well as gender and ethnic economics. His research has been published so far in journals such as the Journal of Economic Inequality, Review of Income and Wealth, Review of Household Economics, Journal of Development Studies, Regional Studies, Journal of African Economics, Industrial Relations, among others.

**Caryn Bredenkamp** is a Senior Economist in the World Bank Health Nutrition and Population Global Practice. Until recently, she was based in the World Bank's Manila office, working on the Philippines, Myanmar and Timor-Leste, and has held previous assignments in the World Bank's Europe and South Asia regions. She recently moved to Hanoi to become the health cluster lead for the Vietnam program. Caryn specializes in issues of health care financing, health insurance, and the promotion and measurement of health system equity. Caryn holds a PhD in Public Policy (Health Economics), a Master's degree in Economics and, before joining the World Bank Group, spent several years lecturing Economics in South Africa and the Netherlands. When not working, she can be found practicing yoga or training her rescue dogs in agility sport.

**Chandan Roy** is a Doctoral Fellow in the Department of Economics, Jadavpur University. He is working on 'Sustainable Rural Development: A Policy Study of Indian Sundarbans'. He has completed his M.Phil from the Department of Economics, Jadavpur University. His research interests revolve around the area of sustainable rural development, environment, economics of adaptation, poverty, livelihood and food security. He worked as a Project Fellow at Vidyasagar

College for Women, Kolkata from December 2012 to November 2014. He also worked as a Guest Lecturer in the Department of Economics, Vidyasagar College for Women from September 2010 to November 2012.
