<p>Brief Bio (150-200 words) Sumit Mazumdar is a senior health economist with over 15 years of experience on health system financing aspects in LMICs. Dr Mazumdar is currently Research Fellow in Global Health Economics at the Centre for Health Economics (CHE), University of York, United Kingdom and Deputy Director of the NIHR Global Health Research Unit (2022-26) on Universal Health Coverage based at CHE. Dr Mazumdar had extensively worked on multicountry research projects on health financing and policy research in India, Bangladesh, Brazil, Indonesia, and more recently in projects on Palestine and Syria. His area of research includes evaluating impacts of health financing programmes; political and institutional economics of health system reforms, and health financing in humanitarian/conflict settings. He is a member of the Health Financing Study Group of the International Health Economics Association and an Advisory Committee member of the Health System Global Technical Working Group on Fragile and Conflict Affected States. Dr Mazumdar has extensively published in leading peer-reviewed journals and regularly advises multilateral development organisations.</p>
